EXPERIENCE

Full-Stack Development Intern October 24 – January 25
Hubnex Lab *Remote*
- Contributed to the development of real-world applications with a focus on scalability, efficiency, and seamless user experiences.
- Actively participated in code reviews, debugging, and optimizations, aligning solutions with industry standards and company goals to drive impact and deliver measurable results.

PROJECTS

Crowd Funding / *Reactjs, Mongoose, Expressjs, RazorPay, Git* Live
- **Developed a crowdfunding platform** enabling users to create and manage campaigns with target funding goals, expiration dates, and real-time donation tracking.
- **Integrated Razorpay payment gateway** for seamless and secure handling of user donations, ensuring smooth transaction processing.
- **Implemented secure authentication** using JWT and TypeScript to protect user data and manage campaign access.

Quick Chat / *React, Tailwind, Firebase, Npm, Cryptojs* Live
- **Developed a real-time chat application** using ReactJS and Firebase, enabling seamless communication with dynamic updates and encrypted message handling for enhanced security.
- **Implemented user verification and authentication** using Firebase, ensuring only verified users can access the platform.
- **Designed a fully responsive interface** with Tailwind CSS, providing an optimal user experience across mobile and desktop devices.

Coursiya / *React, Tailwind, Express, Mongoose, mongoDB, JWT* Live
- Developed a full-stack web application that facilitates the selling and purchasing of courses. The application supports two user roles: Admin and User. Admins can securely post and manage courses, while Users can browse and purchase courses.
- Implemented secure authentication and authorization using JWT, with password hashing for enhanced security.
- Admin and User can see their courses on their profile

TECHNICAL SKILLS

Frontend:, Reactjs , ReactNative Tailwind Css, Javascript, Typescript, Nextjs, Html, Css, Bootstrap
Backend: Express js, Node.js, Cloudflare workers, Jwt
Developer Tools: Git, Docker,Git, Github, Npm, Netlify, Vercel, Render, Cloudinary, Google Cloud Platform, VS Code, Visual Studio, Android Studio
Databases: MYSQL, MongoDB, PostgresSQL, Prisma, Mongoose

EDUCATION

Anugrah Narayan College Patna,Bihar
Bachelor of Computer Application *2022 – 2025*

Anugrah Narayan College Patna,Bihar
Intermediate *2020 – 2022*

Modern School Patna,Bihar
Marticulation *2019 – 2020*
